| $\$ 625$ |  |  |  |
| $\$ 650$ |  |  |  |
| $\$ 675$ |  |  |  |

## Clues for Logic Puzzle: U416AU

1. The $\$ 575$ model is either the model with a resolution of 15 megapixels or the camera with a resolution of 14 megapixels.
2. The Zenix 2C is either the model made by Banion or the camera with a resolution of 14 megapixels.
3. The camera made by Banion costs less than the FC-520.
4. The model made by Nectron doesn't have a resolution of 14 megapixels.
5. The model made by Dayero is either the $\$ 650$ model or the Tela G5.
6. Neither the FC-520 nor the G-290 is the camera with a resolution of 12 megapixels.
7. The camera made by Banion doesn't have a resolution of 12 megapixels.
8. Of the model made by Honwa and the DM-5000, one has a resolution of 20 megapixels and the other costs $\$ 575$.
9. Of the $\$ 600$ camera and the model made by Torvia, one has a resolution of 18 megapixels and the other is the Tela G5.
10. The $\$ 675$ camera is either the model with a resolution of 10 megapixels or the Lectra 6 .
11. The model made by Nectron costs $\$ 575$.
12. The camera made by Torvia doesn't have a resolution of 12 megapixels.
13. Of the camera made by Dayero and the $\mathrm{G}-290$, one costs $\$ 650$ and the other costs $\$ 675$.
