Clues for Logic Puzzle: X551HI

1. The order that included kale cost 1 dollar more than the purchase that included kiwis.
2. The purchase that included asparagus cost 1 dollar less than Carol's order.
3. Kathryn's purchase is either the order that included kiwis or the \$9.25 purchase.
4. Of the order that included parsnips and the \$6.25 purchase, one included figs and the other was Jim's.
5. Of Kathryn's order and the purchase that included asparagus, one cost \$7.25 and the other included limes.
6. The order that included onions cost more than the purchase that included limes.
7. The \$6.25 purchase didn't include rhubarb.
8. Of the \$5.25 order and the order that included watermelons, one included parsnips and the other was Carol's.
9. The order that included grapefruits, the order that included asparagus and the \$8.25 order are all different orders.
10. Tami's order didn't include asparagus.
11. The order that included kiwis is either the \$8.25 purchase or the purchase that included onions.
12. The order that included parsnips cost 1 dollar more than Wesley's purchase.
